SUMMARY

Skilled in full-stack development with expertise in Java, Spring Boot, ReactJS, SQL, and Python. Experienced in building scalable microservices, secure REST APIs, and collaborating in Agile teams. Completed internships and earned certifications in software development and API integration.

EDUCATION

Centurion University of Technology and Management

Sep. 2022- Present
Paralakhemundi, Odisha

- Bachelor of Technology in Computer Science and Engineering
- CGPA: 8.61

EXPERIENCE

GHN Universal Solutions Private Limited.

Mar. 2025 - Present

Java Developer Intern | Remote

- Engineered and maintained scalable backend services for an e-commerce platform using Spring Boot and Microservices, improving performance and reducing response time by 30%.
- Integrated Kafka for asynchronous messaging and Swagger for API documentation, streamlining inter-service communication and improving development efficiency.
- Built and tested over 25 secure REST APIs using Postman; ensured 100% API test coverage and seamless frontend integration with ReactJS.

Zidio Development

May - July 2024

Web Development Intern | Remote

- Collaborated on a web development project to enhance application features, improving user engagement through optimized UI/UX design.
- Contributed to both front-end and back-end development using ReactJS, Spring Boot, and MongoDB, accelerating feature deployment by 20%.

PROJECTS

CaroCart | Spring Boot, React.js, MySQL, VS Code

May 2024 - Present

- Built a full-stack e-commerce application using React.js and Spring Boot microservices.
- Implemented JWT-based authentication and role-based access control for user and admin access.
- Developed microservices for authentication, product, and cart management using Spring Boot and MySQL.
- Designed a responsive UI with real-time cart updates and secure admin features.

Smart Pond Monitoring | SpringBoot, Angular, MongoDB, VS Code, Arduino IDE

Nov. 2024 - Apr. 2025

- Integrated ESP8266 with temperature, pH, and water level sensors for real-time pond monitoring using IoT technology.
- Developed a web server to collect and store live sensor data efficiently in MongoDB.
- Created a dynamic web interface to display real-time sensor readings for enhanced user interaction.
- Showcased skills in IoT device integration, database management, and full-stack web development.

CERTIFICATIONS

- Data Structures and Algorithms using C for Placements by CodeTantra
- Software Engineer Intern Certification by HackerRank
- Career Essentials Software Development by Microsoft and LinkedIn
- Career Essentials in GitHub Professional Certificate

TECHNICAL SKILLS

- Programming Languages:** Java, Python, HTML, CSS, JavaScript, SQL
- Frameworks & Libraries:** Spring Boot, Bootstrap, Angular, ReactJS
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Git, GitHub, GitLab, Postman, Visual Studio Code

ACHIEVEMENTS

- Secured 5-star ratings in Java, Python and SQL on HackerRank
